To Whom It May Concern:

It is my pleasure to recommend Rochester & Associates, Inc. for surveying, civil engineering and project management. During the past six years, our management team has worked directly with Rochester & Associates, on numerous projects including the Downtown Streetscape Project Phase 2 & 3 and a Depot Parking lot. Across the board, we are always pleased with their work.

The projects included every element of design from concept to permitting with the Georgia Department of Transportation. Specific elements of the project included relocating utilities, grading, drainage and bringing the area into compliance with the American Disabilities Act (ADA) requirements. Rochester was responsible for the survey, design and project management. Their experience and attention to detail led to a successful project.

Please consider Rochester & Associates for all your surveying, engineering and project management needs. I recommend them and look forward to working with them again.

Sincerely,

Ed Moon
City Manager
